The Divine Feminine in a Time of Crisis

The global crisis that we are currently facing is a crisis of the masculine. The old patriarchal order, based on domination, competition, and exploitation, has led us to the brink of environmental collapse and social

upheaval. We need a new way of being in the world, one that is based on the values of compassion, cooperation, and sustainability.

The divine feminine can help us to create this new way of being. The divine feminine is the source of all life. She is the nurturer, the protector, the healer. She is the embodiment of love, wisdom, and compassion. When we return to the divine feminine, we return to our true nature. We become more compassionate, more loving, and more connected to the world around us.

The New Return to the Great Mother is a call to action. It is a call to return to our true nature, to embrace the values of compassion, cooperation, and sustainability, and to create a more just and equitable world for all.

The New Paradigm

The New Paradigm is a vision for a more sustainable, compassionate, and just world. It is a world that is based on the values of the divine feminine. It is a world in which all people are treated with respect and dignity, and in which the earth is cherished and protected.

The New Paradigm is not a utopia. It is a vision that we must work together to create. It will take time and effort, but it is a vision that is worth striving for. It is a vision that can make the world a better place for all.

The New Return to the Great Mother is a timely and illuminating exploration of the transformative movement that is occurring in our collective consciousness. It offers a compelling vision for a more sustainable, compassionate, and just world. It is a must-read for anyone who is interested in the future of our planet and the well-being of all its inhabitants.
